

SEMEN STORAGE UNIT

INVESTMENT PROTECTION

Equipped with both heating and cooling elements, Minitube's Semen Storage Units efficiently maintain a consistent storage temperature of 17°C. Paired with our externally mounted TC 200 controller, the user can easily adjust the internal temperature ranging from +5°C to +40°C without having to open the unit and compromise the internal environment.

Technical details

- Temperature range: +5°C to +40°C
- External dimensions:
54 x 84 x 53 cm (300 doses) and 61 x 150 x 62 cm (500 doses)
- Digital TC 200 controller

Your benefits

- Heats and cools to compensate for environmental temperature fluctuations
- Accurate within +/- 1°C
- Rigorously QC tested by Minitube technicians

Order information

Semen storage unit

for 300 doses **REF. : 14160/0300**

for 500 doses **REF. : 14160/0700**

Alternative Cooling Option:

Klima Kit: Electronic controller for keeping +17°C in any refrigerator. No installation required. Target value adjustable.

110 V **REF. : 14160/9002**

230 V **REF. : 14160/9001**
